The only means to get access to these channels are through paid subscription services such as cable, fiber, or satellite TV.. As for what is available, you have a mixed bag For example, the NBC app offered dateline episodes for free but America Ninja Warrior and America's Got Talent required a sign in from a paid subscription.. Cable cutters would love to swap out these paid services and stream I tried installing a few apps from the Amazon App store from Fire TV.

)Can you get local channels such as CBS, NBC, ABC, FOX, CW (CBS+Warner Bros), or Telemundo? These are channels that are widely available by using an over the air antenna for free.. It was a mixed bag of what is available vs what isn't available One thing that was consistent was that no apps provided live content for free.. In some areas, these channels are not available unless you have a high power over the air antenna.. The Firestick is not a TV antennae It is an internet 'streaming' device You can purchase a TV antennae to receive free broadcast channels (ABC.. (Disclosure, I may receive a small referral fee when you make a purchase through links on this post. [Download Crack Surpac 6.3.2](#)

A possible alternative would be to pay for Sling TV With Sling TV, you get a handful of popular TV networks for \$20/month.. This poses a problem for say people who live in apartments where installing a high power antenna on the roof is not possible.. If the app from a major TV network offered live content on Fire TV, it was for people with paid subscription. [nfs 2005 game apkpure](#)
